

# grad to guru

Atos training will make you a  
business or technical expert

**Atos**

---

# campus to career

---

**Today you're a graduate. Tomorrow you can be a business leader or high-level technical specialist. Atos will take you there.**

If you've never heard of Atos, you're in for a surprise. The world of IT has changed and as true Business Technologists, Atos are leading the way. Atos delivers a combination of business and technology services, making our customers more effective, powering progress and providing technology solutions that are integral to business strategy.

We're the organisation that delivered Olympic Games results to the world in less than a second, that manages 374 million online payments every year and provides warnings of earthquakes and tsunamis in the Indian Ocean, saving countless lives.

And we're the organisation that can release your potential. When you join our 76,400 people delivering €8.8 billion in revenues across 47 countries, you can expect a fast-moving and exciting future.

---

# learner to leader

---

Atos offers a structured path that will provide you with the technical aptitude, business acumen and soft skills to take on significant responsibilities. Whichever scheme you choose, you will enjoy the support of a previous graduate to help you settle in and find your way around. You'll quickly build a professional network among your peers whilst enjoying industry-recognised training and development, opportunities to shadow senior colleagues, and regular conference calls with internal experts and guest speakers on key business issues. What's more, we'll regularly review your performance and where appropriate sponsor you to achieve relevant professional qualifications or accreditation.

You can also expect some of the best rewards in the business, including a starting salary of £25,500 (or £27,500 in London), pay reviews every six months, 25 days' holiday (plus the option to buy up to ten more), private medical insurance, a pension plan, a £5000 interest-free loan, a flexible benefits package and much more.

---

# education to innovation

---

Atos offers a broad range of business and technical schemes, so you can find the perfect path for your future. All our graduate schemes offer intensive induction, ongoing training and the chance to develop invaluable transferable skills plus the confidence to take on significant challenges.

---

## **Business Consulting**

You'll quickly gain the skills to help Atos clients derive real value through people, processes and technology - making their organisations more profitable and sustainable, and impacting significantly on their customers.

## **Business Intelligence and Information Management**

You can enjoy unrivalled challenges as you pioneer new approaches to data management and analytics using cutting-edge technology.

## **Finance**

As a Finance specialist, you'll soon get to learn what makes a company with annual revenues of €8.8 billion tick - and what keeps us profitable.

## **General Management**

Whether you're managing service delivery through a team of doctors and nurses, or designing and improving business process, you will be offered unrivalled opportunities to progress within Atos Healthcare.

## **HR**

Atos is every inch a people business, so HR is central to everything we do. You will rotate through a variety of areas within HR, gaining exposure, and the opportunity to contribute to all aspects of the organisation.

## **Information Security**

You'll be part of a team that helps keep Atos and our clients' information safe and secure within the fastest evolving sector within IT.

---

### **Networks and Infrastructure**

Joining a high calibre technical team, you will enjoy intensive training in key technical issues and business processes around core technology that keeps our business running.

### **Project Management**

Our Project Management scheme will give you exposure to, and ownership of, project delivery across a variety of market sectors, clients and projects within an extremely fast-paced environment.

### **Sales**

By developing client solutions and leading sales activity, you will support the growth of the business - so you can expect real impact on our bottom line from an early stage.

### **Service and Operations Management**

Interacting with high profile clients from your first day, you will ensure the highest levels of satisfaction as you drive service delivery and resolve a range of IT-related issues.

### **Software Development**

Developing valuable skills in both technology and business, you may extensively interface with clients or focus purely on complex technical challenges.

### **Solutions Architecture**

Central to the tendering and sales process, you will significantly shape the technology and solutions Atos delivers to high profile clients.

### **Technical Consultancy**

No two days will ever be the same, as you address business and technical challenges to deliver real innovation to our clients.

## Internships and Placements

If you're in your penultimate year of study and want to start gaining experience before you graduate, you're in luck. An internship with Atos will give you everything you need to decide what career path to follow. You can choose between a short-term placement over the summer or a 12-month assignment within a sandwich course. What's more, with one of our longer internships you could find yourself sponsored on your return to university - or if you're really exceptional have a firm job offer ready for when you graduate.

---

# hopeful to hero

---

Before you visit our graduate careers website and apply online, please read the brief information below.

---

**What is the closing date for applications?**

Please check online to see the current closing date. We encourage you to apply early as our popular schemes fill up fast and we start our assessment centres in December.

**What do I need to join you?**

In general, a 2:1 degree in any discipline, which does not have to include an IT component. However, we'll consider exceptional candidates with a 2:2 provided you have a strong work or extracurricular record.

**What does the recruitment process involve?**

There are four stages: an online application form, numerical and verbal reasoning tests, a telephone interview, and finally a full-day Assessment Centre event.

**When will I start?**

Our 2014 intake dates are likely to be in June, September, October and November.

**Can I choose my location?**

We recruit for locations across the UK and will discuss your preference with you. You can see a full list of our UK centres on our website. Some roles are based at a fixed location, whilst others require periods of time away from home at client sites.

**Do you accept applications from non-UK graduates?**

Yes, absolutely, subject to security clearance requirements for certain roles.

---

# About Atos
