15 January 2015

Dear Parent,

### CAREERS TALKS

We have an evening of Careers Talks scheduled for this term on Tuesday 3 February between 4.30pm and 5.30pm. These talks are aimed at students in Year 8 -13 and their parents and will take place in the Old School.

Numbers will be limited and we ask students and parents to sign up in advance and no later than Monday 26 January. We would encourage parents to attend with their son but appreciate that this may not be possible due to the early start time which has been scheduled to accommodate speakers. Students are also welcome to attend by themselves. Drinks will be available in the Old School from 4.15pm. The evening will officially start at 4.30pm.

We would be grateful if you could return the reply slip to the school office by Monday 26 January if you or your son would like to attend. Please do not hesitate to contact Mrs Hutchins should you have any questions regarding the content of this email.

Yours sincerely,

J A Dixon  
Deputy Headteacher

S Hutchins  
Careers and Work Related Learning

**Careers Talk For Students and Parents on Tuesday 3 February 2015**

**4.30pm – 5.30pm in the Old School**

**Return to: School Office or email to: [suzanne.hutchins@kings.lincs.sch.uk](mailto:suzanne.hutchins@kings.lincs.sch.uk) by Monday 26 January**

Pupil's Name: ..... Form: .....

- I would like to attend the careers talk with my son on Tuesday 3 February between 4.30pm and 5.30pm in the Old School [       ]
- My son will attend the Careers Talk by himself [       ]

**Old School**

Time	Presenter	Career	Please tick if you would like to attend
4.30pm – 5.00pm	Adrian Mallinson  Investment Banking	Adrian spent twenty years in the City where he undertook a number of trading and asset management roles primarily in the securitisation and credit derivatives sectors. He was most recently a Partner at Cheyne Capital Management (UK) LLP. Adrian holds an MSc in Mathematics from the University of Nottingham.  The purpose of the talk is to give students, who may be interested in pursuing a career in the City, an insight into the breadth of roles within the banking sector. The discussion will focus on the 'front office' roles typically offered by Investment Banks (Sales & Trading, Corporate Finance, Equity Research and Capital Markets).	
5.00pm – 5.30pm	Professor Carys Siemieniuch  Loughborough University	Professor of Enterprise Systems Engineering in the School of Electronic, Electrical and Systems Engineering at Loughborough University. Within the School Carys is the Programme Director for the undergraduate courses [BEng and MEng] in Systems Engineering. Systems Engineering, to paraphrase the course brochure is a structured comprehensive engineering approach to solving today's complex technical challenges, particularly those related to the design and development of complex, sophisticated systems such as aircraft, ships, automobiles, telecommunication networks, energy infrastructures, information systems etc.  It is widely agreed that the UK needs to train around 87000 engineering graduates a year - double the previous rate - by 2020 to not only replace those engineers who will have retired but also to meet the ever increasing demand from all areas of industry and commerce.  The purpose of the presentation is to talk about the benefits of engineering as a career, various routes students can take and also to describe a range of engineering disciplines together with the sorts of domains where these skills are needed from fashion to pharmaceuticals, from medicine to renewable energy, from formula one to military jets, from finance to infrastructure design and operation.
