 November 2017

Dear Parent/Guardian

The Physics department at the Kings school has arranged for Year 12 and Year 13 physics students to attend an inspiration set of Physics lectures at the Physics Live event at Bramall Hall, Birmingham on 16 January 2018.

On the day there will be specialist talks by experts in their field of Physics. The physicists are carefully chosen for their ability to communicate with students of this age in a direct and exciting way. This is a fantastic opportunity for students to extend their knowledge as well as gaining some valuable advice in preparation for the AS or A level exams. Each student will receive a booklet with details about the physicist, the lecture and some general articles about studying physics – as well as a number of pieces from an experienced chief examiner on success at A level Physics. The day will be fast moving, exciting and thought provoking.

At the time of booking the lecturers are believed to be: Professor Jim Al-Khalili, Dr Michael Brooks, Dr Andrew Pontzen, Dr Suzie Sheehy and Professor Trevor Cox. These are subject to change.

We will be travelling by coach leaving school at 8.00am and departing the event at 3.45pm. A packed lunch will need to be provided and taken by the student.

Due to the limited spaces available these will be allocated due to payment. All payments should be made using the online payment service at www.parentpay.com. The cost of the event, including transport by coach will be £35.00. If you cannot pay via parentpay cash payments must be made asap to the Finance Office. Please note that any payments are non-refundable after 11 December 2017, when payment for the tickets will have taken place, unless a replacement student can be found. If you have any queries, please contact the Finance Office.

Please can you complete the slip below if you would like your child to attend. Replies should be returned to Miss Jones and payments must be made by Friday 1 December 2017.

Should you require any further information, do not hesitate to contact me.

Yours sincerely

Sara Jones
 Subject Leader for Physics
